

AIR TUBES

SABIC® LDPE

CHALLENGE

Sustainability, durability, protect goods against damage, enable re-use, reduce waste

SABIC SOLUTION

Air tubes provide an optimal solution to economically fill empty spaces inside boxes in one simple step. SABIC is working with partners in China on a more sustainable foamed PE concept with no polyamide core layer that will keep the tubes inflated for up to 7 days

SUSTAINABILITY CONTRIBUTION

SABIC polymers enable production of air cushion films that can have shorter inflation times and are easier to recycle than incumbent multilayer films
