

LEXAN™ CORRUGATED SHEET

Greca Shaped Profile

LEXAN™ CORRUGATED Greca sheet is made of high performance polycarbonate and provides excellent light transmission and high impact resistance especially for greenhouse applications. The DRIPGARD condensation control prevents water droplet formation, and protects crops from plant diseases and spoilage. LEXAN CORRUGATED sheet is quick and easy to install and is cost effective due to fewer overlaps and fasteners are required.

POTENTIAL BENEFITS

- High impact resistance
- Maximum condensation control
- Excellent light transmission
- UV protection
- Quick and easy installation
- Standard colors - clear, clear textured, opal white, opaque white
- More colors on request

POTENTIAL APPLICATIONS

- Commercial Greenhouses
- Hobby Greenhouses
- Office Partitions
- Vertical Glazing
- Industrial Roofing
- Pool Enclosures
- Patio Coverings
- Window Replacements
- Metal Buildings
- Skylights
- Domes
- Shelters
- Canopies
- Sheds
- Walkways
- Carports
- Sunrooms

DRIPGARD CONDENSATION CONTROL

DRIPGARD treatment is a special hydrophilic condensation control developed by SABIC Functional Forms business, that reduces the surface tension of LEXAN™ CORRUGATED sheet. This decreases the contact angle between water and polycarbonate sheet and consequently prevents water droplet formation. The condensate is distributed as a thin film over the sheet surface, preventing loss of light transmission and water droplet formation causing plant diseases and spoilage.

AVAILABILITY

• Product Code	COGC08 Corrugated Sheet
• Profile	Greca
• Gauge	0.033" / 0.8 mm
• Standard width	51" / 1295.4 mm
• Standard Length	576" / 14.6 m
• Available Lengths	max 600" / 15.24 m min 96" / 2438 mm
